

DAYTRIP TO LOMBOK

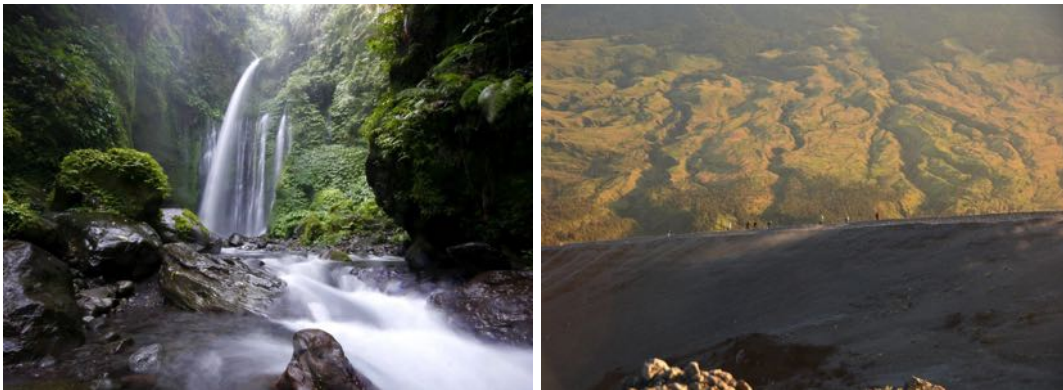

Lombok has beautiful scenery and is more pristine than its sister island of Bali. It has beautiful temples and beautiful rice paddies. Lombok is also famous for its pottery and textiles. In central and southern Lombok, there are several small villages where you can visit **pottery, weaving, wood and coconut handicraft** centers.

In the north of Lombok lies **Senaru**, a traditional village and below Senaru are two beautiful waterfalls. The most common is to visit the first waterfall. For those who enjoy walking, why not take a walk in the jungle and enjoy the beautiful surroundings. The waterfalls are a bit down in a valley and surrounded by jungle, trees and flowers. After a visit to the waterfalls, it's nice to take a cool drink with a beautiful view of the volcano, the rice fields and the ocean!
